Are you interested in a specific guest home or type of guest home?

Type A: Butternut, Tamarack, and Aspen (Choose this or circle one) _____

Traditional "log cabins," with one large room, entered through a large screen porch on the lake side. Large room has sleeping area, a sitting area, small dining table and mini kitchen. All have a high ceiling and ceiling fans. The logs are whitewashed, with windows both front and side for light and airy feel. Mini-kitchen, with under-counter size refrigerator and smaller micro for lighter meals, but no stove, cookware or utensils.

Type B: Blue Wing & Green Wing (Choose this or circle one) _____

One-bedroom Apartment Suites. Located on the lowest level of the larger Manager's home and winter office, these two suites have a living room (which has a double sofa bed) with fireplace, a full sized kitchen and a separate bath. Each has a walkout patio deck. Elevated a little from the lakefront and setback 124 ft from the lakefront, these suites have lovely long views of the lake and its gorgeous islands. The two suites can also be rented together as a two-bedroom duplex. The suites work well for people traveling alone, who do not want to be in an individual cabin alone. They also are a more economic option for couples or small families who want a full kitchen and fireplace.
